DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the allowability recites at least in part: a first hinge section that disposes in an approximately center portion of the display section case a first rotation axis for rotating the display section case in the folding or opening direction relative to the operating section case; a second hinge section that disposes in an approximately upper end portion of the operating section case a second rotation axis for rotating the operating section case in the folding or opening direction relative to the display section case in parallel with the first rotation axis; and linking means for linking both ends of the first rotation axis and both ends of the second rotation axis, respectively, the folding portable terminal being able to be folded by the hinge mechanism such that the display section is not opposed to the operating section.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
